EQUIPMENT SALES KENYA LTD

ARGO SERIES

In the 1990s, AJAX was the pioneer in introducing the concept of Self-Loading Concrete Mixer (SLCM) to our nation standing by the values, beliefs & hopes of millions of concreting workers' households and now, it has become the largest SLCM manufacturer in the world. AJAX provides complete concrete solutions in supporting the infrastructure sector thereby boosting Infrastructure Economy. ARGO Model's mantra is 'Maximum Productivity; Optimal Investment': Doing more with less; One extra-ordinary machine that can do the work of 10 ordinary men will result in very good savings in terms of Return on Investment. The unrivalled versatility and efficiency would greatly deliver a reliable mix producing optimal concrete batches resulting in greater productivity with minimal skill or effort involved that can be operated at ease by an operator.

The CEV BS III (CEV) and EU NRMM 97/68/EC Stage 3A compliant engines are more environment friendly that reduces emission levels. The AJAX ARGO SLCM offers a host of features that provide highest productivity as well as value added features like Load Cells, Advanced Telematics, Admixture Dosing Unit, HARDOX Drums and many more features for varied applications such as Irrigation, Roads, Bridges, Buildings, Railways, Renewable Energy, Infrastructure projects etc.

AJAX, always believes in "CUSTOMER FIRST" focus and all its products are designed and manufactured in the state-of-the-art plant and backed by the widest dealer Network of over 35 Dealers with more than 100 Branch Offices to offer the best- in-class after sales support to ensure maximum uptime for its customers.

PROVEN & TESTED IN TOUGH TERRAINS

- ▀ AJAX the Global leader in SLCM associates with CAT the Global brand for engines. CAT provides its innovative and reliable solution using leading edge technology with an excellent worldwide dealer support.
- ▀ C4.4 series engine are modular and compact in design with best in class fuel consumption.

TECHNICAL SPEC

PARAMETER	ARGO 1000	ARGO 2000	ARGO 2500	ARGO 4000	ARGO 4800
Weighing Technology	Pressure Transducer	Pressure Transducer	Pressure Transducer / Load Cell	Pressure Transducer / Load Cell	Load Cell
Drum Output*	1 cu.m	2 cu.m	2.5 cu.m	4 cu m	4.8 cu m
Max. Drum Rotation Speed	20 rpm	22 rpm	22 rpm	22 rpm	22 rpm
Unladen Weight	3210 kg	5531 kg	7165 kg	8110 kg	8930 kg
Bucket Capacity	250 L	320 L	400 L	590 L	625 L
Fuel Tank	40 L	65 L	90 L	110 L	135 L
Water Tank	65 L	360 L	600 L	800 L	850 L
Water Pump Capacity	230 lpm	230 lpm	230 lpm	230 lpm	400 lpm
Gradeability	17°	22°	20°	25.6°	21°
Drive	4 Wheel Drive	4 Wheel Drive	4 Wheel Drive	4 Wheel Drive	4 Wheel Drive
Tyre	10.0 / 75 - 15.3 - 18 PR	12.0 / 75 - 18 - 12 PR	12.5 / 80 - 18 - 14 PR	16.0 / 70 - 20 - 14 PR	400/70 - 20 IND 155 A8
Vehicle Speed	0 - 18 kmph	0 - 22 kmph	0 - 24 kmph	0 - 28 kmph	0 - 29 kmph
Variant	Non-Swivel	Non-Swivel	Non-Swivel / Swivel	Non-Swivel / Swivel	Non-Swivel / Swivel
Available Engines	Mahindra 44.6 hp @ 2300 rpm	Kirloskar 49.5 hp @ 2200 rpm	KOEL 76 hp @ 2200 rpm Bharat Stage-III (CEV) Turbo Charger CAT C4.4 Series 95 hp @ 2200 rpm EU NRMM 97/68/EC Stage 3A Turbo Charger	KOEL 110 hp @ 2500 rpm Bharat Stage-III (CEV) Turbocharged+Intercooled CAT C4.4 Series 113 hp @ 2300 rpm EU NRMM 97/68/EC Stage 3A Turbocharged+Intercooled	KOEL 110 hp @ 2500 rpm Bharat Stage-III (CEV) Turbocharged+Intercooled CAT C4.4 Series 113 hp @ 2300 rpm EU NRMM 97/68/EC Stage 3A Turbocharged+Intercooled

OPTIONAL FEATURES AVAILABLE IN SELECT MODELS

- Telematics • Rear View Camera • HARDOX Drum • Admixture Dosing Unit • Bi-Directional Tyres
- Smart CBC • Cabin AC • EH Drum Control • High Pressure Water Jet • Auto Water Cut-off

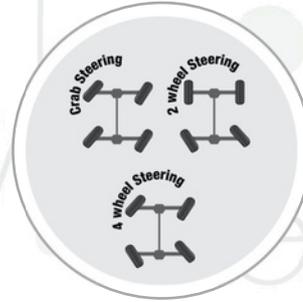

DIMENSIONS

Dimension in mm	ARGO 1000	ARGO 2000	ARGO 2500	ARGO 4000	ARGO 4800
A	2520	2816	2933	3000	3025
B	5160	6070	3800	4025	7115
C	2975	3310	5161	5625	4240
D	260	270	315	365	353
E	1670	2150	2316	2352	2530

SALIENT FEATURES

3 WAY STEERING

3 way steering ensures tight turning radius and excellent manoeuvrability, ideal for work in confined space

4 WHEEL DRIVE

Truly an Off-roader acting as a tough terrain vehicle with good tight-turning radius and higher gradeability with Improved traction contributing to better grip on slippery & harsh terrains

LOADING BUCKET

Smooth flow of materials in to the drum with NO spillage

LOAD CELL WEIGHING SYSTEM*

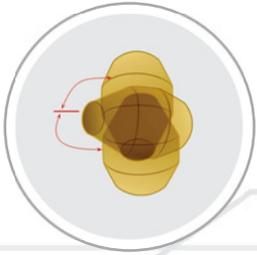

Load cell weighing system defines a paradigm Shift in concreting, with the best-in-class weighing accuracy for cement, fine & coarse aggregates

**Patent Applied for*

SMART CBC (CONCRETE BATCH CONTROLLER)

Ensures desired quality of concrete is delivered as per mix design by allowing the operator to calibrate the quantity of aggregates into the mixer, User friendly switch controls, Alpha numeric keypad with TFT colour display, Multiple recipe option & storage up to 10000 batches with Water/additive auto cut-off

AUTO MIXING MODE

Auto mixing ensures complete mixing cycle due to pre-set duration resulting in the best-in-class homogeneous concrete.

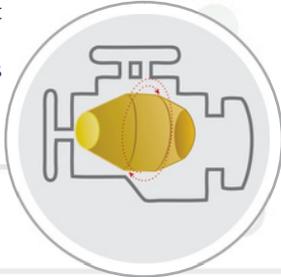

TELEMATICS

IoT enabled Fleet-tracking & monitoring system through telematics that also ascertains fuel efficiency, offline/online monitoring & real time reports

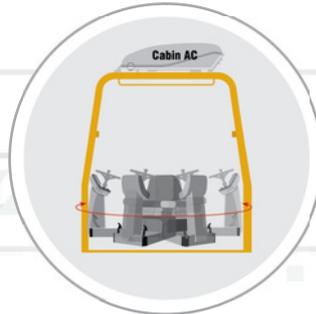

CENTRALIZED GREASING SYSTEM

#Enhances the life of internal components
Subject to conditions

ELECTRO HYDRAULIC DRUM CONTROL UNIT

Independent controls unit for varying Engine speed without affecting the Drum rotation resulting in best-in-class Fuel Economy with substantial cost savings

CABIN ERGONOMICS

Swivelable operator's post 180° provides good visibility both during driving, loading & discharging with best-in-class comfort & ease of operations to the operator

REAR VIEW CAMERA

Vehicle reversing camera with display unit provides wider field of vision that helps in monitoring the loading / unloading operations from sitting inside the cabin

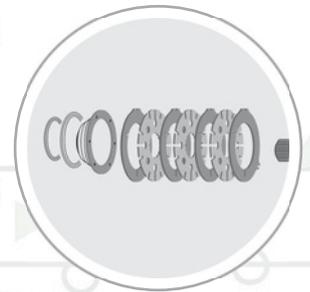

DRUM SWIVEL MODE

Gives an extra edge to the operator to reach the farthest point for placing concrete that provides operator better productivity & operator efficiency

EMERGENCY PARKING BRAKE SYSTEM

Ensures Safety and hazard on any working & static condition

HYDRAULIC WET DISC BRAKES

Better control on terrains by engaging both front and rear axle in operation

ADMIXTURE DOSING UNIT

A separate design unit for dosing admixer to the drum.

JOYSTICK & LEVER OPERATIONS

Ease of operation with effective hydraulic controls sitting inside the operator's cabin having complete control over bucket, slide gate, loading arm, drum lift & drum swivel

AUTO CLEANING MODE

Auto cleaning facilitates complete drum cleaning thereby minimizing concrete setting and optimal water usage.

BI-DIRECTIONAL TYRES

Flat bi-directional tread pattern with high lug-to-void ratio equipped with void guard protection

BEST-IN-CLASS BENEFITS

HIGH PRODUCTIVITY

Parallel water-cement loading, Optimised site layouting helps in achieving optimal output, Single lever for lifting arm bucket & closed gate operations enhances productivity, best-in-class output

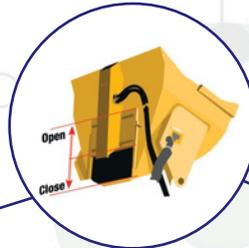

LESS FUEL CONSUMPTION

Less fuel consumption due to best-in-class power to weight ratio & auto mixing mode

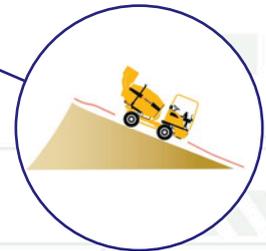

AJAX GENUINE OIL

Specially designed hydraulic oil ensuring longer change intervals and regulates temperature for better performance, best-in-class performance

ZERO SPILLAGE

Closed gate bucket ensures zero spillage of materials, Controlled loading of aggregates, No wastage leads to best-in-class annual cost savings

GRADEABILITY

Can Traverse with concrete load on inclined terrains with zero spillage

Subject to conditions

LOAD CELL WEIGHING SYSTEM

High accuracy leads to accurate weighing resulting in best in class annual cost savings

SAFETY FEATURES, STANDARDS & CERTIFICATIONS

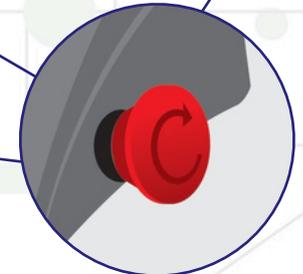

QUALITY & SAFETY STANDARDS

Robust built quality, Safest machine in any working conditions

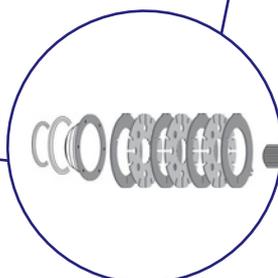

CERTIFIED HOMOGENOUS CONCRETE

Best in class providing homogeneous concrete mix and highest accuracy in weighing system compliant to IS Standards

EMERGENCY PARKING BRAKE SYSTEM

Ensures Safety and hazard on any working & static condition

HYDRAULIC WET DISC BRAKES

Better control on terrains by engaging both front and rear axle in operation

ARAI CERTIFICATION

ARAI Certification enables machine to drive on roads.

APPLICATIONS

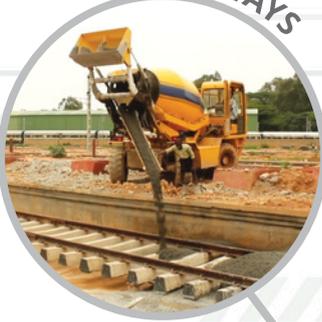

BUILDINGS

PRECAST

RAILWAYS

BRIDGES

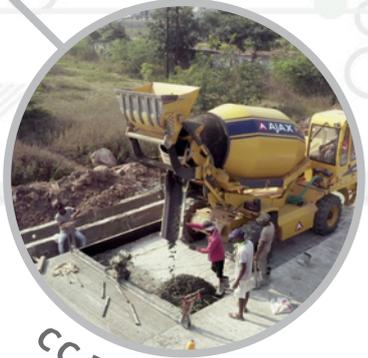

INDUSTRIAL FOUNDATION
